### **PROGRAM ABSTRACTS & LOGIN INFORMATION:**

Thursday, June 1 (11-12 pm)

#### **Need to Create a Communications Plan? Here's What It Should Look Like (Bloomerang)**

You've been asked to create a communications plan, but aren't sure what it should look like. Google is no help, because you'll get a hundred different answers. No worries . . . Kivi Leroux Miller will give you the straight answer for what your communications plan should look like. You won't get a sample plan (Kivi will explain why using a sample is a terrible idea.) But you will get something even better: everything you need to know to create a communications plan of your own that meets the needs of your organization. You'll even be able to use the plan to make a case for more communications resources from your executive team and your funders.

For more information and to register, visit: <https://bloomerang.co/resources/webinars/>

Thursday, June 1 (12-1 pm)

**IT Staffing: Who are You Gonna Call? (TechSoup)**

This free webinar discusses when having in-house IT does and does not work. Sam Chenkin from Tech Impact will share handy tips on how to work with external vendors. He will also share methods to realign IT away from operational needs and to strategic change. Supporting your organization is no longer just about keeping your computers running. In the modern world nonprofits need to be able to manage and implement databases, cloud technologies, and reporting systems. IT staffing is as much about helping nonprofits get the most out of the tools they have available as it is about servers and networking.

Thursday, June 1 (12-1 pm)

**Making Difficult Conversations Easy (Effectiveness Institute)**

Do you shy away from conflict? In organizations across the world conflict is avoided. Expectations go unmet, values are violated, and overall underperformance exists because people do not know how to effectively resolve issues without resorting to the use of power. This one hour session introduces you to concepts that enable you to begin to “integrate conflict” - to walk into it and effectively handle it - rather than avoid it.

Thursday, June 1 (12-1 pm)

**Nonprofit Insights: Stories & Solutions Shaping the Future of Volunteer Screening (VolunteerMatch)**

This is your chance to share your experiences with other volunteer leaders in the space! Not to worry, we'll ensure your name and organization's anonymity if you prefer. We'll then introduce a new solution that helps volunteer managers rightfully avert future “bad actors”, securing the future of your organization.

For more information and to register, visit: <http://learn.volunteermatch.org/training-topics>

Thursday, June 1 (1-2 pm)

### **Fundraising 101: Fundraising Metrics - How Do You Measure Up? (CharityHowTo)**

The measurement of key performance indicators in fundraising has become a best practice, and you don't want your organization to fall behind. Be a data-driven organization, know your fundraising health, and measure the work you do every day. If you have a spreadsheet and can do simple math, you can use fundraising metrics to improve your operations and help your organization grow. You can do it! Join Heather to learn how.

Thursday, June 1 (1-4 pm)

### **Library 2.017: Digital Literacy and Fake News (San Jose State University School of Information)**

This event is being organized in partnership with futurist Bryan Alexander, who will serve as moderator for the opening panel and as the closing keynote speaker. Invited panelists and presenters will look deeply at the foundational relationship of libraries and librarians to media, information, and digital literacy. We invite all library professionals, employers, LIS students, and educators to provide input and participate this event.

Tuesday, June 6 (11-12 pm)

**Libraries and Compassion Fatigue (Massachusetts Library System)**

"You work in a library? That must be so peaceful!" If you've had this response when telling someone where you work, and haven't known exactly how to respond because, well let's face it, working in a library isn't always peaceful, then this webinar is for you. We'll discuss the effects our work has on us, and what to do about it. Elissa Hardy, the Community Resource Specialist at Denver Public Library, is one of only a handful of on-site library social workers. She is an expert on the effects of trauma and stress on individuals, and has trained librarians around the country to help them better support their communities and themselves. This webinar will be recorded.

Tuesday, June 6 (11-12 pm)

**Let the Wild Rumpus Start! Child-lead play in public library programming (University of Wisconsin SLIS)**

Have you ever wondered if there's a better way to spend your summer programming hours than hiring magicians and jugglers? Do you struggle with ways to incorporate truly authentic play (the kind YOU engaged in as a kid, not the kind directed by adults) into your library offerings? Not sure how much guidance to provide in open-exploration sessions for toddlers? Are you looking for more ways to encourage literacy skills and parent education? This webinar will introduce you to a radical new library program idea being pioneered in Madison, Wisconsin, based on a groundbreaking new educational philosophy called Anji Play. Learn how Carissa has adapted this approach, originally developed for schools, into a library-friendly format that both kids and parents love.

Tuesday, June 6 (11-12 pm)

**Nonprofit 911: The Key to Inspiring & Engaging Your Mid-Level Donors (Network for Good)**

We pay lip service to mid-level donors. We know they exist, but we have virtually ignored them for 10+ years. The truth is that they are a unique donor pool within our programs. They have different needs and different giving behaviors, and they aren't inspired by or engaged in our work. It's time to change that! In this free webinar, you'll discover how a dedicated mid-level fundraising program will help you ultimately raise more.

**Telling the Story of Volunteer Impact (VolunteerMatch)**

You want to share the impact volunteers have in your organization and in the community, but often the information you track doesn’t help you tell that story. This webinar will help you move past number of volunteers and number of hours and start telling the real story. You'll learn about information gathering and the key components to good storytelling, how to evaluate your current measurements and how to build support for a more thorough measurement and evaluation program, and how to engage other staff – paid and volunteer – in this work. You'll also receive a worksheet to help you begin to tell the story of volunteer impact in your organization

**Masters of the GovDoc Universe: Public Libraries as Local eGovernment Service Providers? (Federal Depository Library Program)**

In the United States, public libraries facilitate the use of eGovernment services by providing reference support and Internet access to patrons. Public libraries are also trusted, value-driven organizations committed to the dissemination of knowledge and the promotion of civic ideals. Although public libraries are suited to build and maintain online collections of local government records, the libraries' role in local eGovernment often remains limited. This presentation summarizes library and eGovernment research and looks at the vital role that public libraries can play in building and maintaining digital collections of city and county records.

**A Generational Assessment of Trust: How It Can Make or Break Your Organization (Training Industry)**

Trust is the foundation of great leadership. The level of trust that we have in our leaders ultimately determines our confidence in their ability to effectively deliver results. Distrust, on the other hand, can breed disengagement, lack of loyalty, diminished returns on investment and reduced productivity. Host Jonathan Darville, master trainer, will review results from a recent study on the generational assessment of trust.

**Using Story-time to Grow Executive Function and Self-Regulation in ECE: Setting the Stage for Success (Early Childhood Investigations)**

We know that sharing books with young children helps them gain valuable early literacy skills like vocabulary, print awareness, and letter knowledge. However, it also helps them develop skills that experts say are a better predictor of success: executive function skills. Executive function, or “soft” skills, include social-emotional skills like self-regulation and taking on different perspectives, as well as accessing one’s working memory and more. In this interactive webinar, participants will learn what executive function is, why it’s important to learning and life success, and how it can be developed through shared story time experiences.

**Collaborating on Course Design: Part II (North Carolina Library Association)**

Does starting an embedded librarian program seem impossible? The Central Piedmont Community College Library has started on a path to integrate information literacy competencies and outcomes at the curriculum-level. CPCC is doing this through sustainable instructional design by partnering with faculty (and others) to develop and implement course-level content that supports course, program, college, and national outcomes. Librarians coordinate with appropriate faculty and collaborate in three main areas: Content, Assignments & Rubrics, and Support. This Webinar is a follow-up to the previous CUS Virtual Conference Webinar panel discussion and will provide attendees with specific tips and examples of how to collaborate with faculty to create content.
