

Board of Barber Examiners

Mission and philosophy

It is the duty of the Wyoming Board of Barber Examiners to ascertain that only qualified individuals are licensed to practice, and that all sanitary and shop licensing rules set forth by statute are adhered to; thereby, insuring public health and well being.

Results of outcomes

The board inspected 91 shops and licensed 130 barbers. Numbers are still diminishing in the barber profession. The board has problems with timely renewals and is working to make that system more efficient.

Strategic plan changes

Board members will work to update to a less subjective examination and continue to clarify rules on approved barber schools and number of hours needed for Wyoming examination.

The board also plans to continue to encourage license holders to become more familiar with state statutes, sanitary rules and regulations, the license fee structure and due date, and to promote consumer awareness in regards to safety and sanitation.
