

Wyoming Public Library Statistics FY07

(July 1, 2006 to June 30, 2007)

About the statistics:

Statistics are collected from more than 9,000 public libraries, through the Federal State Cooperative System (FSCS) for Public Library Data. A public library is defined as having: 1) an organized collection of library materials; 2) paid staff; 3) an established schedule when it is open to the public; 4) facilities that support the collection, staff, and schedule, and 5) full or partial support from public funds.

Each of Wyoming's 23 counties has a public library system serving all county residents. There were 23 main libraries, 52 branch libraries and 2 bookmobiles. These libraries report their statistics annually to the Wyoming State Library, which submits it to the FSCS.

Because Wyoming's counties vary widely, statistics have been arranged in order of county population for comparison. Where appropriate, per capita measures have been included. Although these statistics allow for comparisons between libraries, caution should be exercised when interpreting them. Local needs, economies, geography and library policies differ, and that can be reflected in the numbers.

Library materials budget notes:

In 2006, the Wyoming State Legislature passed a special appropriation of \$10 million to fund collections in the state's public, community college and university libraries. Income and expenditures from this appropriation began appearing in FY07 data, depending on how the local libraries chose to receive the funding. This funding resulted in a significant increase in the proportion of state support of local libraries.

Changes in circulation reporting:

FY07's circulation numbers call for a special discussion. Methods of reporting circulation changed considerably in FY07, rendering

any multi-year trends using FY06 and prior data inaccurate. Comparing FY06 and FY07 statistics, there is an apparent drop in circulation from 4.43 million to 4.34 million. Some individual libraries will show more dramatic apparent decreases.

This drop is due to the reporting changes. Data taken directly from the libraries' circulation system show statewide circulation growing slowly.

These changes in reporting were made to improve consistency between libraries on how they reported circulation. FY07 circulation data will allow for better comparisons between libraries, and better trend information in future years.

A few facts about Wyoming libraries during FY07:

- Public libraries were open for a combined total of 129,349 hours annually. There were 3.28 million visits to public libraries in FY07 – 6.4 visits for every Wyoming resident. The states’ libraries typically get more visitors than does Yellowstone National Park!
- Statewide, libraries spend \$47.89 per capita to provide library services. Local government provide 89% of library revenue.
- Public libraries held 2.7 million items in their collections, and circulated 8.4 items for every Wyoming resident.
- State funding of libraries jumped dramatically from \$8,470 in FY06 to \$2.34 million in FY07, due to a one-time appropriation from the Wyoming State Legislature providing \$10 million for library collections.
- The legislative funding had a huge impact on collections. Expenditures on materials jumped from \$2.17 million in FY06 to \$3.04 million in FY07. Per capita spending on collections increased from \$4.27 to \$5.90 per Wyoming resident.
- There were 573 public computers with internet access in public libraries. These were used more than a million times.
- Wyoming libraries put on 9,213 children’s programs, with attendance of 241,600.
- Public libraries employed 645 people for a total of 433.4 full-time equivalent positions and a total payroll of \$13.1 million.
